

JISU KIM

San Diego, CA 92122 | (206) 669-5817 | jik003@ucsd.edu | <https://www.linkedin.com/in/jik003/>

TECHNICAL SKILLS

Python | scikit-learn | Statistics | Probability | Data Visualization | Exploratory Data Analysis | SQL | Machine Learning | HTML | Linux/Unix | GitHub | MATLAB | TensorFlow

PROJECTS

Implementing Unsupervised Learning Algorithms

COGS 118B Introduction to Machine Learning | San Diego, CA January 2022 - March 2022

- Implementing ML algorithms to visualize the clusters
- Written in Python, using Numpy, matplotlib.pyplot, and tensorflow libraries
- Fitting a single multivariate Bernoulli distribution on MNIST dataset
- Fitting a mixture of multivariate Bernoulli model on the dataset
- Applying Kmeans to the dataset to cluster the digit images

Most common words on Amazon star ratings

COGS 118B Introduction to Machine Learning | San Diego, CA January 2022 - March 2022

- cleaned comments data by dropping stop words using nltk library
- Written in Python, using Numpy, pandas, matplotlib.pyplot, scikit-learn, seaborn, and nltk libraries

Examining the Effects of COVID-19

COGS 108 Data Science in Practice | San Diego, CA January 2022 - March 2022

- Evaluated analytical model findings in kaggle datasets.
- Written in Python, using Numpy, pandas, math, matplotlib.pyplot, and seaborn libraries
- Datasets were cleaned and usable after data wrangling steps were completed
- Cleaned datasets are displayed through data visualizations

Car Price Prediction

COGS 118A Supervised Machine Learning Algorithms | San Diego, CA April 2022 - June 2022

- Using SVM and logistic regression to predict the used car price in the current market
- Utilized label encoding and one hot encoding to transform the datasets
- Written in Python, using Numpy, pandas, matplotlib.pyplot, scikit-learn, and seaborn libraries

SCHOOL

University of California, San Diego | B.S. September 2019 - August 2022

Cognitive Science - Machine Learning and Neural Computation Major and Mathematics Minor
